Collection no. 163

K.H.L. Key + M.S. Upton

28.x.–28.xi.1969

Eyre Pen., Nullar. Plain., S.E. of W.A.

1

28/10

17393.4 Spring Cart Gulley reserve.
Open mallee to 15ft, with Myoporum Compl. rugicol., Gonioc. australasicae,
sp. to 8ft, Cassia sp. + a phyllode acacia Pardillana sp. II (j.), Apothopic. uffata, Caperrala.
to 3ft, Kochia pyramidata to 2ft well sp.-6 (i), Genus nov. 9: ochracea, Quadella maculata,
spaced, several spp. of Kochia + Bassia Crotalopus sp. 1; Austrocicetes frater, Pezenosticta
to 10 in, occ. Zygophyllum sp., Stipa seriatus, Urnisa rugosa, Phanlacridium sp. (i)
sp. in patches. Brown fine sand with
limestone concretions, coming to
surface in eroded places. Leaf + twig
litter under mallee. Almost flat.

395.7 Turn-off to Bassi to left.

405.7 Barmera.

414.9 Open mallee to 12ft on brown Gonioc. australasicae, Tapesia caneipes,
sand, nearly flat, in places compacted Caperrala sp. 1, Austrocicetes frater, A. pusilla,
+ with surface lime concretions + Urnisa rugosa; U. guttulosa, Crotalopus sp. 1
lichen. Several spp. of Kochia + Stipa sp. to 1ft,
Bassia to 9in, some Zygophyllum,
some litter, some bare ground.

419.3 Overland Corner (P.O.)

436.7. Slightly undulating brown sandy loam with halls to 20ft, quite frequent lime concretions on surface + some more massive limestone. Atriplex vesicaria to 2ft + spp. of Kochia + Bassia to 1ft. Stipa sp. to 8in. Patches bare ground, a little lichen. Austroicetes frater, A. arida, A. cruciata, A. pusilla, Tapesia caviceps, Unisa rugosa, Cratilopus sp. 1

442.5 Taylorville

460.4. Turned off to Burra (ca. ¼ mi from Morgan.

466.1. Turn-off to Samson's Well.

471.4 Turn-off to Redcliffe.

473.6. Turn-off to Robertstown

480.1 Floriston

484.3 The Gums (H.5.)

488.4 Gently undulating pale brown soil with limestone concretions + patches of smooth stones some 10ft in diam. Heterodendron oleifolium to 10ft in open formation, with Kochia sedifolia + Atriplex vesicaria to Caperrala sp. 6, Phanerocercus tetrodo, Qualetta multiflora, Macrolophalia sp. (?), Austroicetes nullarborensis, A. cruciata, A. arida, Cratilopus sp. 2, Pycnosticlus seriatus, Caperrala sp. 1

2ft, Stipa sp. + Danthonia sp. to 1ft, some low Kochia + Bassia spp. to 6in. Phaenocoma not associated with the larger stone patches, but with smaller + sparser stones + herbage.

512.5. Burra.

646.3 Post Augusta. Bridge over the Gulf.

653.1 El Alamein Camp.

658.6 Lincoln Park Creek.

661.5. Turned off for Solyalla.

664.0. Camped.

29/10.

664.0 Shallow depression with red Corynphistes micicola, Callitera variegata, sand. Acacia sowdenii to 15ft well Pyanostictus seriatus, Urnisella rubropunctata, spaced, with occ. Myoporum platycarpum Pesqudia sp. 9, Beplesia occ. Cassia sp. 1 to same, K. pyramidata + K. scabfolia sp. 2, morabine sp. P29.
to 30 in abundant, Bassia spp. to 6 in, sparse Stipa sp., much bare ground.

665.1 Cockaloo Creek.

691.7. Outskirts of Whyalla. (bypassed)

692.9. Turn off to ~~Art. Young~~. left

721.6. Turn-off to right. Ether mallee

726.4. Turn-off to Iron Duke

729.1. Fence: Into wheat country

731.1. Pine Hill

732.9. Turn-off to right

738.6. Turn-off to Warrayappa H.S.

743.3. Bend right. Road in from left.

744.5. Road off to right

745.9. Road off to Poondooma to right

753.3. Road off to Mitchellville to left.

757.8. Cowell P.O.

761.9. Road off to Clive to right

767.4. Echoes Hill (township)

772.5. Road to Carpa on right

785.3. Turn-off to Arno Bay.

794.1. Turn-off to Koolunda

800.7 Turn-off to Koolunda.

804.1. Turn-off to Port Neill

805.1. Main turn-off to Port Neill

806.9. Turn off to Yelanna

811.7 Turned right for Yelanna.

816.0 Turn-off to Bubbs Tanks.

822.8. Turn off to Ungara to left.

827.1. Turn-off to right.

831.3. Road junction.

832.5. Mallee to 10ft well spaced, with dense understorey of numerous heathy shrubs, incl. Leptospermum sp. to 6ft, Melaleuca spp., Calothrys sp., Hakea sp., Casuarina sp. (all to 4ft) Leguminosae, Hibbertia sp., to 1ft. & occ. patches of a cypseaceous plant to ½ft. A little grass. Genus nov. 95 ochracea, morabine sp. P28

On highest point of undulating country. Pale brown soil with lateritic gravel.

835.5 Road to Brookes to right.

843.1. Yelanna. Returned on Ungara road. S

844.2 Cemetery. A few heathy shrubs. Only nymphs of Acrotona sp.

[N.B. The whole area around Yelanna

has been given over to wheat.
The only original vegetation is the
narrow strips of mallee & heathy
shrubs along the roads.) Return.

845.2 Crossed railway.

848.5 Mingana

851.5 Road junction among lakes.

856.6. Gently undulating, pale brown
soil. Mallee to 15ft with dense
shrub-layer of mixed microphyllous
shrubs to 7ft, but others to 2ft dominant
in places. Cyperaceous hummocks
abundant.

858.0 Road in from right.

860.0. Turned left for Kapinnie

861.5. Kapinnie P.O.

862.2. Turned right

865.2. Crossroads.

869.2. Main road to Mt. Hope. Turned left.

870.8. Turned right.

871.3 Consolidated sand hills with

morabine sp. P28

~~sandy~~ whitish soil + large exposures
Genus nov. 95 Ochraea, Uruisa rupestris,
of aeolian limestone. Mallee to 3ft,
Corybbistes spp. of nuicola, Azelota diversipes,
with a few microphyllous + other shrubs
Brachyscama + lobipennis, morabine sp. P28
to 2ft. Scattered grass + cyperaceous
tussocks. [This is a saddle in the Mt.
Hope ridge.] Return.

871.8 Back on main road. Turned right.

872.2 Gentle undulations with
Corybbistes nuicola, Cirphula jungi, Azelota
brown soil + exposures of flat diversipes, Apotropis vittata, morabine sp. P28,
aeolian limestone. Mallee to 12ft,
Propsedmura peninsularis
well spaced, now represented by
regrowth to 6ft. or partly cleared. Misses
microphyllous shrubs from 9in to
6ft. dense, with cyperaceous tussocks
to 1ft. + sparse grass. Propsedmura
on the broad-leafed ~~cypera~~ sedge alone
Lepidosperma viscidum s. lat.
(spec.). Also the same 0.2 mi. further S.

30/10.

872.4. Depart for Mt. Hope.

874.6. Turn off to Kapinnie

877.6. Mt. Hope. Return.

878.4. Turned right.

879.4 Turned left

881.6 Turned left

884.3. Crossed Flinders Highway.

886.9. Undulating mallee heath
morabine sp. P28; Propodnura peninsularis,
essentially as last stop. Cyperaceous
plant prominent.

18002.8. Yaninee

18010.0 Rise with pale brown soil &
Goniaea australasiae, Coryphistes nicrola,
limestone concretions. Mallee to 8ft,
Genus nov. 95 ochracea; Genus nov. 48 sp. 2,
with broombush & other microphyllous
Apotropis vittata, Urnisa rugosa, Austroicetes prater.
shrubs to 3ft. incl. Dodonaea sp. to 2ft.
Genus nov. 6 sp. 2, morabine spp. P127a; P28
Sparse grass.

012.7. Minnipa

023.8. Undulating brown soil with
large limestone outcrops & stones.
Azdota diversipes, Apotropis vittata, Genus
nov. 95 sp. 8, Goniaea australasiae,
Mallee to 8ft spaced, with Melaleuca
Genus nov. 48 sp. 2, Urnisa rugosa, Coryphistes
spp.; Dodonaea sp. & Acacia sp. to 4ft,
nicrola, incl. Olearia sp.
numerous other shrubs to 2ft, Triodia
morabine spp. P28, P127c
irritans abundant, Danthonia sp.
sparse, a few forbs.

025.4 Kareeltaby.

033.7. Poodhera.

039.6. Turn off to Chandada.

040.7. Gently undulating brown soil Coryphistra ruricola, Genus nov. 95 ochracea, with limestone stones. Mallee to 15ft. Urnisa rugosa, Genus nov. 48 sp. 2, moraline well spaced, with Melaleuca spp. to 5ft sp. P1276 + other shrubs, mid. a red Eremophila, to 2ft, Triodia irritans abundant, Danthonia sp., some Stipa sp.

045.7. Cungena.

119.5. Ceduna.

130.8 Base of coastal sand dune on Cape Austrostipa flabellata, Asplenium sp. 3, road to Vivonne. Whitish sand. Mallee Pygmaeostachys scariosus to 15ft, Melaleuca sp. to 6ft, Gijera linearifolia to 4ft, Atriplex vesicaria + A. sp. to 2ft, Crabbostylis to 3ft, with Mesembrianthemum sp. + Carpobrotus sp. + Bassia spp. to 6in. Stipa sp. occ. to 1ft.

31/10

132.8 Ceduna.

134.6. Ceduna depart.

152.5 Koonibba Rly. siding.

154.9. Gentle undulations on pale brown soil. Mallee to 20ft. spaced, with Melaleuca sp. to 6ft. Geijera linearifolia to 5ft, occ. smaller shrubs, much dense Stipa sp. to 1ft, occ. Zygophyllum sp., Eremophila sp. Only very small morabine mymbs on shrubs.
Conyphiotes nitricola, Acrotricches terminifera, Genus nov. - 95 ochracea, Nitrcola sp. 10

156.4. Intersection at Cundrie Tank (156.6)

160.4 = 160.7. Undulating, with pale brown soil. Myoporum ~~sp~~ platycarpum to 15ft occ., Geijera linearifolia frequent to 6ft, occ. Acacia sp. to 6ft. Occ. Cratylostylus to 3ft, Atriplex vesicaria to 1ft, Stipa sp. dense to 1ft. Morabine on Geijera (spec.) Geijera linearifolia (D.C.) Black
morabine sp. P1276

161.1 Intersection to Woolshed Hill.

180.2. Penong

246.4. Flat, pale brown soil. Mallee

to 20ft in patches, with Geijera linearifolia & a silver-leafed, mauve-flowered, upright Eremophila to 3ft, occ. red-flowered & smaller mauve-flowered Eremophila to 1ft, occ. Zygophyllum sp. & other small shrubs. Much litter & bare ground, Stipa sp. between smaller patches.
Genus nov. 95 ochracea, Cryptandra tricicola, morabine spp. P.127a, P.33

~~248.3~~ Grid, bank on right.

254.3 Vermin-proof fence.

260.4 Turned off to Yalata Mission.

261.3 Yalata Mission. Return.

262.5 Back on highway.

266.0 Grid

285.7 Pale brown sand hills with mallee to 25ft, spaced, A. dowdenii to 10ft, occ. Myoporum platycarpum to 15ft. Crateolaelaylis abundant to 3ft. Atriplex vesicaria & Zygophyllum to 1ft, Stipa sp. frequent to 1ft, some Bassia sp. to 6in. Morabines on Crateolaelaylis.
Beaksia sp. 3, Genus nov. 95, ochracea, Apobrapis vittata, morabine sp. P28.

286.6 Vermin-proof fence.

303.6 Dry Tank Motel.

306.1. Vermin-proof fence.

310.4. fence

312.8. fence

315.2. Tracks to left.

320.8 fence. = 321.7.

321.8. Turned south. =

323.0. Crossed track.

324.1. Repeater station.

324.7. Followed along north side of fence to east.

326.9 Tank.

327.0. Road in from right.

328.1. Road in from right

329.9 Cross fence

330.3. Cross fence

332.0. road in from left.

? 332.6 Genus nov. 32 sp. 1, moralhue op. p33

333.2. End of road. Nice well. Return.

337.3 Took left fork (= 328.7) along tel. line.

338.1 Track in from right

338.3. Through fence.

338.7. Turned left. 339.4: Camped

339.4 undulating consolidated sand hills with pale brown sandy soil + occ. limestone concretions. Widely spaced mallee to 8ft, large spreading Melaleuca sp. to 5ft, Cratystylis cohocephala to 3ft abundant, A. resicaria to 1ft, + Bassia sp. + an abundant small rounded shrublet with small white flowers (Westringia rigida?). Occ. sparse grass. Morabine on Cratystylis, also Senna nov. 40 & Corynphistes.

346.7. White Wells.

348.+ Back on highway.

478.4 Eucla

478.8. Top of descent of scarp. Rugged outcropping limestone on very steep slope of gully. Scattered mallee to 12ft. with Melaleuca sp. to 4ft + scattered shrubs to 2ft, incl. a red Eremophila.

Urmina rugosa, Senna nov. 40 sp. 1, Corynphistes
Gonialea australasiae, Apobropis vittata

+ Rhagodia sp.

485.1 Grid.

491.2. Junction with old road.

500.0 Turned off to right.

500.6. Quarry at base of scarp. Steep rugged limestone slope with massive exposures of rocks. Mallee, well spaced with Melaleuca sp. to 10ft occ, V. occ. Conoccphala Cratystylis sp. A. vesicaria to 2ft, occ. Leiera linearifolia, V. occ. A. nummularia, Zygophyllum under eucs, Rhagodia sp., other small shrubs occ., Stipa Stipa scabra Lindl. (spec.) sp. aff. verticillata in patches + sparse more generally (P170 on this). Also on top of scarp: flat with other shrubs (Austrocitcs here, morabina on slope, Mc granulosa group prob. on Zygophyllum.

Austrocitcs nullarborensis, Corynbiotes microla, Eucalyptus oleosa, Psyllaostachys morabina spp. P127a, P180

501.2 Back on highway.

501.5. Track to left.

510.7. Road takes slight bend to right.

512.0. Projecting spurs of escarp.

516.9. Road bends to right (away from old road & telegraph line).

519.1. Road curves to left.

519.9. Turned off for Kuthala Pass.

521.0. Top of pass. Essentially as last stop. Marked about. Return.
Limnophos. 95 ochracea, moraline sp. P180.

523.5. Back on highway.

525.2. Bend left.

526.7. Bend right to rejoin old road.

530.7. Bend off old road to right.

530.9. Grid.

533.3. Bend left

534.6. Grid.

537.1. Bend left

537.8. Bend right on to old road. Road off to right (to Ennis Well?)

539. Opposite Ennis Well.

541.2. Grid

548.8. Turned off for Mundradilla

548.4. Top of pass.

549.0 Camped

2/11.

549.0. Mallee to 15ft well spaced, with Senecio nov. b sp. 2, Austrocallitris millarbergensis, Melaleuca sp. to 10ft, Grevillea linearifolia to 6ft, occ. A. pusilla, Senecio nov. 95 debraccea, Acacia rotunda A. pinifolia to 6ft, occ. A. nummularia to 5ft, scattered Rhagodia sp., R. scalfolia, Rhagodia sp. 26, Pycnostachys sp. 2, Urnisa rugosa, Rhagodia sp., Pandiana sp. II, Chorizema + A. ulicifolia to 2ft, Bassia spp. to 6in, Stipa sp. often dense to 1ft, P180, P33 much bare ground, with all sizes of limestone rocks + gravel. Flat top of scarp + a few feet down the edge.

551.9. Back on main highway.

557.0. Grid

560.0 Bend right

560.8 Bend left.

561.7. Opposite trig. Cairn on scarp.

566.7 Bend left

568.3. Bend left

569.0. Bend right on to old road.

572.2. Old road bends right.

579.3. Tank.

586.2. Moodini Bluff.

586.9. Turned off to Moodini Pass.

587.2. Base of pass & half-way up scarp. Steep & more gentle slopes, with limestone rocks on steeper parts. Brown sandy loam. Mallee to 20ft, Melaleuca sp. to 10ft, A. resinaria to 2ft, Zygophyllum chunps to 1ft, occ. A. nummularia to 4ft, scattered Bassia spp. to 9in, short-grazed Stipa sp. to 3in, scattered forbs. Chorizema terminifera, Urnisa rafosa, H. guttulosa, Apotropis villata, Austrobiceps fraker, Goniala vocans, Porrazia sp. 2, Genus nov. 32 sp. 1

587.6 Back on highway.

602.0. Madura.

658.0. Coodlakiddy.

660.0 Took right fork.

669.6 Took left fork.

670.4. Took right fork

670.9. Camp site. Lunch on.

671.1. Crossed telegraph line.

676.0. Turned right at intersection.

677.2. End of road at dunes west of Twilight Cove. Return.

679.9. Mallee to 12ft on consolidated
Goniaca vocans, Peakeria brunnea,
white sand dunes, with mixed heathy
Urnisa rugosa (?), morabine sp. P8
shrubs, incl. Melaleuca sp., Hibbertia sp.,
legumes, etc. to 3ft + in places 1ft,
annuals cupperaceous plant to 9in,
much bare sand. Morabines on Hibbertia.

683.6 = 670.9. Ridge + hollow of
Urnisa guttulosa, U. rugosa, Goniaca vocans,
stabilized + partly consolidated sand-
Pespulia sp. 2, Nicoella sp. 8, Urniciella
hill with beige-coloured sand +
rubropunctata, morabine sp. P8, Propsedmura
occasional aeolian limestone rocks.
cyrei
Mallee to 12ft spaced, with Callitris
? aenucosa to 10ft, mixed microphyllous
shrubs, incl. Melaleuca spp., Calythrix
sp., Acacia sp., + legumes, to 2ft, 2 spp.
Gahnia deusta plants (R. Br.) Benth.; Lepidosperma
of tussocky ~~Cupperaceae~~ (spec.) to 18in.;
tuberculatum Nees [det. Blake] tussocky
Propsedmura on both spp. ~~of Cupperaceae~~
only. [Gahnia is a grass; Lepidosperma a sedge]

3/11.

683.6. Depart.

685.4. Gently undulating pale brown
sandy loam with much surface

shone to 2in diam. Mallee to 15ft
Corymbia opaca, Micromyrtus sp. 9, Ionixia
spaced, Melaleuca sp. to 7ft, Casuarina
pauper, Goniaea vocans, Genus nov. 48 sp. 2,
sp. to 7ft, mull spaced shrubs of
Apotropis vittata
Dodonaea sp., Olearia sp., & legumes
to 1ft. abundant Triodia sp. to 1ft,
a fine mossy edge to 6in, much
bare ground. Small morabine nymphs
numerous on Dodonaea, Triodia, & sedge.

687.9. Nearly flat country as previous
Corymbia opaca, Goniaea opomaloides,
shop, but no Triodia & more shrubs,
morabine sp. P127a
including a little dense, white-flowered
("brittlebush") Westringia rigida R. Br.
one (spec.) to 1ft. (morabine on this).

737.2 Caiguna Motel.

761.7. Flat, pale brown sandy loam.
Goniaea australasiae, Genus nov. 95
Mallee to 20ft spaced, with Eucalyptus
ochracea, Apotropis vittata, Genus nov. 46 sp. 1,
linearifolia & a broom-like bush to
Bassia sp. 3, Corymbia opaca
6ft, Crateloxylis to 3ft, occ. A. mammularia
Westringia rigida A. resinaria,
to 4ft, brittle-bush, Olearia sp. & a
samphire to 1ft, Kochia & Bassia sp. to
9in, much bare ground.

808.1. Flat, brown sandy loam. Mallee to

Pappleessia sp. 3, Pandillana sp. 11, Goniaea
20ft spaced, with a broom-like shrub
australasiae, Ovalifta conocephala maculata,
to 10ft, Crateystylis ? occ. A. nummularia
Pycnosticus sp. 2, A. vesicaria, Westringia rigida
to 3ft, Olearia sp. ? to 1ft, brittle-bush to 1ft,
P. scinatus, Monistria discrepans, Genus nov. 46 sp. 1,
Bassia sp. to 9in, much bare ground,
Apotropis villata, Genus nov. 6 sp. 2, Monisa, Tagora
some litter, scattered Stipa sp. to 1ft.

833 Balladonia H.S.

846.3. Gout. Tank.

849.6. Balladonia Hotel

852.? Afghan Rock. Return.

855.6. Balladonia Hotel.

856.5. Gently undulating, with pale
Monistria sp. 2, M. discrepans, Pandillana sp. 11,
brown fine sandy loam with
Pappleessia sp. 3, Corypristes ramosa, Goniaea
scattered fine limé concretions.
australasiae, Genus nov. 46 sp. 1, Pegnalia sp. 6.
Mallee to 20ft spaced, with scattered
Apotropis villata conocephala
Melaleuca sp. to 8ft, Crateystylis ?
occ. A. nummularia to 4ft, a grey
broom-like Eremophila with mauve
Westringia rigida
flowers to 5ft, brittle-bush, Olearia
sp. ? a small prostate Eremophila
with mauve flowers to 1ft, occ.
Acacia sp. to 2ft. Much bare ground

& litter. Monotrias on brittle Westringia rigida bush & low Eremophila : abundant.

4/11
866.3. Undulations with brown fine sandy loam. Mallee (?) moraline sp. P8 + other mallee to 30ft, with mainly dense understorey of Melaleuca sp. to 7ft, Dodonaea sp. to 4ft, occ. quondong & other shrubs, occ. Olearia to 2ft. Some bare ground. Moraline on Dodonaea, along with numerous small nymphs.

876.4. Gently undulating red sand with scattered mallee to 10ft, an Acacia with narrow phyllodes to 6ft, Dodonaea spp. & Eremophila spp. | other small shrubs to 2ft, Triodia sp. to 18in, considerable bare ground, occ. open patches with low-grazed Stipa sp. Chost., Ulmisa gutt. Dysdera maculata, Austrarchaea fratra, Rhytidoponera tristis, Urinisella nebropunctata, Tapesta caneipes

887.0. Turn-off to right.

887.6. Newman Rock. Mallee to 25 on pale brown granitic soil, leading down to the broad rock with a large

waterhole. Eremophila with pink flowers
Acacia nos. 48 & 10.2, Rhagodia preissii,
to 8ft scattered about. Frodia sp.
Microcola babia, Paractenia albolimbata
under mallee, very short grass + forbs
around rock, with Bassia sp. to 6 in in
places. Tetrigids on short growth near
water.

888.2. Back on highway.

894.4. Bend left.

896.7. Grid.

897.7. Lower slopes of stony hill. Rhagodia interioris (?), A. conjicta, Microcola
brown sandy loam. Trees, mulga
badia, Tapesta admirabilis, Pycnosticha serriata,
Dodonaea sp., Cassia sp., Eremophila
Acacia guttulosa
sp., + other shrubs to 2ft, grey Bassia
sp. to 6in, sparse grass on open patches
to 2in, a few forbs.

903.3. Grid

905.5 Grid

909.6 Grid. Bend left.

910.4. Road forks. Took right one.

911.1 Fraser Range. Steep slopes with
much dark rock, red-brown soil. Casuarina

op. to 20ft well spaced, Dodonaea sp., Genus nov. 95 ochracea, Urnisa rutulosa, Chorizaetes + a few other shrubs to 2ft scattered. terminifera, Austrocistus cruciata, Apotropis vittata, Lower slopes with a soft Aristida sp. Pycnostachys sinuata, Porrasia sp. 2 dense to 6in.

5/11 Corynotheca micrantha, Genus nov. 31 sp. 1, Goniaea opalmaloides, G. australasiae, Pardillana sp. 11, Urnisa rugosa, Genus nov. 95 ochracea, Genus nov. 44 sp. 1, Porrasia sp. 2.

984.5. Dept Norseman Motel.

993.0 Native mission

997.2. Spur of Mt. Thirsty adjacent to shore of Lake Cowan. A mallee of tree sp., Pardillana sp. 11, Austrocistus frutex, Genus form to 30ft on steep rocky slopes nov. 95 ochracea, Porrasia sp. 2 (i.) + adjacent flat. Brown skeletal soil. Corynotheca micrantha, Apotropis vittata, Spallia Eremophila spp., Pittosporum sp., + A. Conocephala nummularia to 6ft, Cratystylis to 3ft. A. vesicaria occ. to 1ft, a few other small shrubs, occ. mixed grasses + forbs, some bare ground + litter.

19000.7 Turned left.

19002.8. P8 (?) sp. between them, at lower levels with K. sedifolia to 2ft & A. vesicaria to 1ft.

531.2. Flat, brown fine sandy loam. Mallee (both mull-spaced), to 30ft, Myoporum platycarpum to 20ft occ. Pardillana sp. 11, Goniaea vocans, Quakkia Heterodendron oleaefolium to 8ft, scattered macalata, Genus nov. 95 ochracea, Genus nov. 32 A. ~~nummularia~~ to 4ft, Crateystylis & K. sp. 1, Chorizetes tomentifera, Genus nov. 40 sp. 1, sedifolia to 3ft, A. vesicaria to 1ft, with Psychosticta seriatus, Genus nov. 6 sp. 2 occ. Bassia sp. to 9in. Bare ground, much of it with lichens. (A clearly open woodland spacing of trees.)

535.0. Pioneer Tank.

537.3 New Pioneer Tank.

542.1. ~~Hard~~ Flat with pale brown soil. Genus nov. 6 sp. 2, Pycnosticta sp. 2, Pardillana mull spaced mallee to 40ft with mull sp. 11 (j.), Goniaea australasiae, G. vocans, spaced A. nummularia to 4ft, Crateystylis Ap. atropis vittata, Bafeccia sp. 3, Genus nov. 40 & K. sedifolia to 3ft, A. vesicaria to 1ft, sp. 1. patches of Bassia sp. to 6in, bare ground

with lichen, litter under mcs.

Apotropis vittata.

547.1 Margin of small lignum plain. Chorizichites terminifera, Austroicches
Bassia sp. + short grass tussocks, with pulgaphorensis, Genus nov. 32 sp. 1, morabine
to 6in on pale brown soil. Occ. A.
sp. P.33
muscaria + A. nummularia.

549.3 Bull Oak Tank.

553.3. Took left fork.

554.7. Coates Tank.

556.2. Brown fine sandy loam, slightly Macrolophotia sp., Apotropis vittata, Goniaea
undulating. Mallee to 40ft well spaced, australaside, Pycnostictus sp. 2, Boplessia sp. 3,
with A. nummularia to 4ft, Craty~~t~~stylis
Genus nov. 95 ochracea, Qualetta maculata, Genus
to 3ft, A. muscaria to 1ft, Bassia sp. to nov. 40 sp. 1, Genus nov. 6 sp. 2
6in, sparse tussocky grass to 4in. Bare
ground with lichen.

559.2 First King Tank.

564.1 Kalingobunyals Dam.

564.4 Nondoonia Dam.

567.9. Gate.

574.9. Nondoonia H.S.

583.2. Balladonia Motel

12/11

589.8 Left Eyre Highway on Esperance road.

598.3. Flat, with pale brown soil. Mallee Apotropis vittata, Genus nov. 95 Schizacea, Genus widely spaced to 40ft, A. nummularia nov. 32 sp. 1, conocephala Goniaea australasiae, to 4ft, Crat[illegible]stylis to 3ft, A. verrucosa, Pardillana sp. 11, Oec. Buprestia sp. 3, Coryphistes K. scabrifolia, + Eutrana to 2ft, Banksia tricocla sp. to 9in. Genus nov. 40 sp. 1.

604.0. End of cross-fence on left. Road bends left.

606.5 Tank on left.

609.1. Flat with pale brown soil with Merabine sp. P6, Goniaea vorans, G. sp. 1, G. australasiae, limestone concretions. Mallee to 40ft, Genus nov. 46 sp. 1, Apotropis vittata, Pardillana partly damaged by fire. Melaleuca sp. sp. 11, Genus nov. 95 Schizacea, Acacia broom-like to 8ft. Regrowth of Melaleuca + Eremophila rugosa, Austrobeta Westringia rigida. Olearia sp. sp, also cuco, to 3ft, brittle-bush, + Fraxinus, Monistria discrepans, M. sp. 2, Porrascia sp. 2 (3)(8) low mauve Eremophila to 1ft.

609.6. Intersection + fence comes.

612.3. Bend left + end cross fence.

612.8. Sharp bend left.

613.6. Bend right.

616.1 Bend right. Track in from left.

617.3 Track off to left.

619.3. Flat, brown soil, often with lichens, Genus nov. 6 sp. 2, Macrozamia sp. 26(?), Pachycarpa Mallee to 50ft, well spaced, with A. sp. 3, Gonioca australasica, Apotrepis vittata, nummularia to 5ft, Gratystylis & A. Genus nov. 46 sp. 1, Corynotheca micrantha reticaria to 2ft, Eremophila (silvery brown) occ. to 4ft, brittle-bush & Olearia sp. Westringia rigida to 4ft under trees, occ. Eucalyptus linearifolia? & ? Apophyllum anomalum to 6ft. Bare ground.

622.6. Track crosses at small angle.

627.7. Flat land to right.

628.9. Bend left.

630.9. Coraginа Rock (Tank)

632.1. Flat with brown sandy loam & Austrotheca pusilla, A. spatulata, Pyrrosticta bordering a small rock hole. Mallee Eriastrum, Corynotheca micrantha, Genus nov. 95 to 30ft, with Dodonaea spp, Eremophila ochraceae sp., Cassinia sp., & other shrubs to 6ft. Carpobrotus frequent, short grass & forbs fringing rock hole. Chat.

632.5. Ponies Rock.

640.4. Stop. No Acridoidea.

642.7. Bend left.

651.0 Bend left.

652.3. Jumanda Rock Hole. A depression in a broad granite exposure, containing water; also surrounding gentle slopes with brown sandy soil. Mallee to 20ft, acc. Callitris sp. to 20ft, Melaleuca sp. to 10ft, Acacia spp., Cassinia sp., Casuarina prominent, sparse thin grasses. Tchingilis on damp soil + low cover at edge of water.

Magrolophotia sp.; Arostrocites fraterculus, Parabattus bipectinatus, Genus nov. 95 Ochracea

659.8. Track out on right.

660.1 Pine Hill. Slight rise, with brown sandy loam + limestone exposures. Mallee to 25ft, Melaleuca sp. to 10ft, Casuarina sp. to 6ft, Dodonaea sp., Eremophila sp. + Westringia rigida brittle-bush + a leguminous shrub to 1ft, Lepidosperma sp. Prop sedmura sedge to 18in, sparse grasses.

Microcola sp. C, Coprophiseta nivicola, Genus nov. 95 ochracea, Monistria discrepans, morabine sp. P8, Propsedmura eyrei to 3ft,

660.2. Jumana Rock.

670.2. Undulating, with fine white

Goniaea australasiae, G. opomaloides; sand + bits of surface limestone. Mallee
Cirphula jungi, Apotropis vittata, Pezopeltia a few
dense to 12 ft, with Melaleuca sp. + other
sp. 5 (♂), moravine sp. P8.
microphyllous shrubs to 3 ft.

671.1. Intersection. Sandplain heath
Urnisa rugosa, Exarna includens (♂), Genus nov.
on low rise. White sand. Many
12 sp. 1, Cirphula sp. 2 (♂), Peakesia brunnea,
species of heath plant to 1 ft, with mallee
Microcola sp. 2, moravine sp. P6, Propsednura eyrei.
well spaced to 6 ft. Took road to Saraelite Bay.
13/11
673.4 Whitish sand plain to S. of Mt.
Genus nov. 12 sp. 1, Genus nov. 95 obovacea,
Ragged. Heath 1–2 ft, somewhat reduced
Exarna includens (♂), Peakesia brunnea, Goniaca
species composition, considerable
vocans, moravine Callitis sp. to 5 ft.
edges, mallee well spaced to 8 ft,
spp. P6, P119, Propsednura eyrei
Tympanophora males collected at
night by stridulation, ♀ in shrubs. Return.

673.9. Summit + lower slopes of a low
Coryphistes nicaea, Cirphula sp. 2, Peakesia
spur extending S. from Mt. Ragged.
brunnea, Goniaca opomaloides, Monistria
large rocks on summit + slopes, with
lateguttata, Genus nov. 12 sp. 1, Urnisa rugosa,
mallee + large shrubs to 8 ft, leading to
moravine spp. P6, P119.
heath + low mallee on lower slopes
as at 673.4. Monistria on a Melaleuca
or Leptospermum to 2 ft.

675.2. More sandy than 673.4, largely

different species but structure similar,
Cirphula sp. 2, Peakesia Dryandra nobilis brunnea,
but with a serrate-leafed Banksia to
morabine sp. P6, Prospedunera eyrei
8ft + mallee to 6ft, both spaced.

675.6 = 671.1. Continued on Esperance
road.

677.1 Bush right.

680.1 Trig. R279.

684.9. Gentle undulatorino of palebrown
Peakesia brunnea, Cirphula sp. 2, morabine
sand, with spaced mallee to 5ft + mixed
spp. P6, P9
heath shrubs 1-3ft.

695.0 Undulating sand plain with white
Peakesia brunnea, Cirphula sp. 2 (j.), Genus nov. 25
sand. Heath with very numerous spp.,
sp. 1, Lepidosperma sp. morabine spp. P6, P119,
incl. Prospedunera sedge, occ. Banksia
Poedna nana (j.)
sp. + mallee to 5ft.

705.0 Road in from left.

705.2. Nearly level sand plain with white
Exocarpa includens (j.)
sand. Heath to 1ft, with Xanthorhoea
frequent to 3ft, mallees very occ. to
3ft, occ. other shrubs to 3ft. Prospedunera
sedge + other sedges.
